Construction Managers*

510 Belmont Avenue
Bala Cynwyd, PA 19004-2299
Phone: 610-664-4227
Fax: 610-664-3680

Our payrolls employ estimators, carpenters, laborers and plasterers in the expert repair of damaged commercial, institution and residential structures, and their renovation and maintenance.

Our construction jobs can be as small as a minor door repair, or as large as a \$1.7 million repair to a damaged roof at a rural junior high school complex completed ahead of schedule and under budget. Our construction over the past twenty years has been concentrated in the areas of damage repairs, and interior renovation including banks, retail spaces and interior fit-ups.

We have been the Philadelphia areas building repair experts since the 1930's.

F. B. Davis Sons CMI also provides detailed building damage estimates to insurance adjusters and companies outlining the reasonable and proper scope of damages and the estimated cost of repairs of these structures.

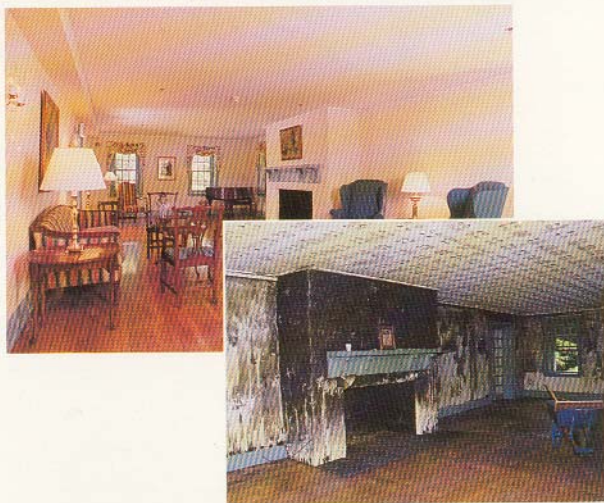

CATASTROPHE RESPONSE:

In 1991, when the tragedy of Hurricane Hugo struck the South Carolina coast, members of F. B. Davis Sons CMI's staff relocated to Charleston, to provide timely, concise estimating services to insurance carriers at numerous commercial properties, limiting the scope of repair and saving carriers millions of dollars.

In 1992, when Hurricane Andrew crossed the peninsula of Florida, again F. B. Davis Sons CMI staff members relocated to southern Florida to provide estimating services and support to insurance adjusters and their companies, saving dollars and resolving building damage claims.

F.B. Davis Sons Florida, Inc. is a licensed building contractor in the state of Florida.

It is the experience, expertise and support that F. B. Davis Sons CMI provides which helps resolve claims in times of catastrophe.

F. B. Davis Sons CMI has provided estimating services to buildings from Scranton, PA and New York City to western Pennsylvania, as far east as the Jersey Shore, and as far south as Virginia, South Carolina and Florida.

Since 1903, F. B. Davis Sons CMI have been the experts at analysis of damaged buildings, preparation of detailed estimates, and the repair of these structures in the greater Philadelphia region.
